I can solve division problems with a tape diagram
$$6 \div 2 = 3$$

6	
?	?

I can solve division problems with an array

6 split into 2 rows

I can solve division problems using Equal Groups

Share 6 equally

I can use Repeated Subtraction to solve division problems

$$6-3=3$$
$$3-3=0$$

Subtract back...

# I know how to use fact families to solve division problems

6,2,3

$6 \div 2 = 3$

$6 \div 3 = 2$

$2 \times 3 = 6$

$3 \times 2 = 6$

I can use a number line to solve division problems

Hop back by 3

0 3 6

I can solve multiplication problems with a tape diagram

2x3=6

3	3
?	

I can solve multiplication problems with an array

2 rows of 3

# I can solve multiplication problems using Equal Groups

2 groups of 3

I can use Repeated Addition to solve multiplication problems

3+3=6

I can use a number line to solve multiplication problems

2 Hops Of 3

0   3   6

I can solve multiplication problems with Sticks

2 rows and 3 columns
